# PRESS RELEASE

For immediate release

Successful Kick-Off (virtual) meeting

The CSR-Ready consortium has concluded its first Transnational Partner Meeting that has taken place virtually on Friday 02.10.2020. The meeting counted with the presence of several representatives from each partner organization, and served to set the expectations for the project and define the work plan for each of the deliverables.

During the meeting, the coordinator tvw led the rest of the consortium throughout the different Work Packages and Intellectual Outputs. Thus, once the management plan, the work plan and the basis of the communication between partners were established, Camara de Comercio de España, the partner that leads the development of the Intellectual Output 1 (International SME CSR-Ready Impact Framework), introduced the consortium to the output and detailed the next steps and the division of responsibilities. Dissemination and Quality Assurance were also discussed among the partners to ensure the flow of both activities in a successful way.
